

Table of Contents

Foreword	iii
Conference Organization	v
Keynote	
On-Demand P2P Media Streaming Over the Internet	
<i>Son T. Vuong</i>	xxiii
Visual Summaries of Geographic Databases	
<i>Robert Laurini</i>	xxiv
DMS-1 Distributed Multimedia Systems I	
A Recommendation System for Segmented Video-Streaming Content utilizing Categorized Events and Stimuli	
<i>Billy Chi-Hong Cheung, Son T. Vuong</i>	3
A Comparison of Distributed Data Parallel Multimedia Computing over Conventional and Optical Wide-Area Networks	
<i>Fangbin Liu, Frank J. Seinstra</i>	9
A Lightweight Augmented Reality System	
<i>Yugo Hamakawa, Takuya Kawase, Masahito Hirakawa</i>	15

DMS-2 Distributed Multimedia Systems II

Measuring Reliability Component in Business Process Automation <i>Cihan Varol, Coskun Bayrak</i>	21
Optimizing the Architecture of Adaptive Complex Applications Using Genetic Programming (S) <i>Ilham Benyahia, Vincent Talbot</i>	27
IVJ: A Soft Real Time Scheduling Algorithm <i>Sedigheh Asiaban, Mohsen Ebrahimi Moghaddam</i>	32

DMS-3 Distributed Multimedia Computing

Videoconference Support System Using Printed and Handwritten Keywords (S) <i>Kikuo Asai, Hideaki Kobayashi, Kimio Kondo, Noritaka Osawa</i>	38
Reporting Events in a Multimedia Content Distribution and Consumption System <i>Victor Torres, Eva Rodríguez, Jaime Delgado</i>	44
Distributed Interactive Multimedia for Technology-enhanced Learning and Automated Content Production and Distribution (S) <i>Bee Ong, Kia Ng, Pierfrancesco Bellini</i>	51
Performance Evaluation and Statistical Analysis of a BitTorrent Tracker (S) <i>Pierfrancesco Bellini, Ivan Bruno, Daniele Cenni, Paolo Nesi</i>	55
High Resolution Digital Media Personalisation for All Delivery Context Device Agents <i>Atta Badii, Ali Khan, Adedayo Adetoye, David Fuschi</i>	59

DMS-4 Distributed Multimedia Systems III

Unifying Quality Standards to Capture Architectural Knowledge for Web Services Domain <i>Francisca Losavio, Alfredo Matteo, Roberto Rahamut</i>	65
--	----

Tassonomy and Review of Complex Content Models <i>Pierfrancesco Bellini, Ivan Bruno, Paolo Nesi, Michele Spighi</i>	71
Testing Multi-agent Systems for Deadlock Detection Based on UML Models <i>Nariman Mani, Vahid Garousi, Behrouz H. Far</i>	77

DMS-5 Digital Home and Healthcare

IP-Surveillance System Using Interactive Dual Camera Hand-off Control with FOV Boundary Detection (S) <i>Chu-Sing Yang, Ren-Hao Chen, Chin-Shun Hsu, Chen-Wei Lee, Eugene Yeh</i>	85
Action Patterns Probing for Dynamic Service Composition in Home Network <i>Sheng-Tzong Cheng, Mingzoo Wu, Shih-An Weng</i>	89
A Flexibile Contxt-aware Middleware for Developing Context-aware Applications <i>Po-Cheng Huang, Yau-Hwang Kuo</i>	95
ARCATS - Tackling State Explosion in a Multi-Phased, Compositional Way <i>Yung-Pin Cheng, Chun-Yu Lee</i>	100
Optimization of Multilevel Power Adjustment in Wireless Sensor Networks <i>Sheng-Tzong Cheng, Mingzoo Wu</i>	106

DMS-6 Multimedia Software Engineering I

Projects and Goals for the Eclipse Italian Community <i>Paolo Maresca</i>	112
Enhancing Rationale Management with Second Life Meetings <i>Andrea De Lucia, Fausto Fasano, Rita Francese, Ignazio Passero</i>	118

DMS-7 Multimedia Software Engineering II

A Method to Diagnose Self-weaknesses for Software Development Organizations <i>Chi-Lu Yang, Yeim-Kuan Chang, Chih-Ping Chu</i>	124
A Distributed System for Continuous Integration with JINI <i>Y.C. Cheng, P.H. Ou, C.T. Chen, T.S. Hsu</i>	130
Transforming UML Sequence Diagrams to Class Diagrams (S) <i>Yen-Chieh Huang, Chih-Ping Chu</i>	136

DMS-8 Multimedia Software Engineering III

Goal-driven Design Transformation by Applying Design Patterns <i>Yong-Yi FanJiang, Wen-Ting Lee, Jonathan Lee</i>	140
A Real-time Scheduler Designed for Virtual Machine to Support Multiple Service Classes <i>Chieh-Ping Tsai, Mong-Fong Horng, Yau-Hwang Kuo, Jang-Hao Jiang</i>	146

DMS-9 Emergency Management and Security

An Architecture for an Operational Picture System for Crisis Management <i>Erland Jungert, Niklas Hallberg</i>	152
Using Low-fidelity Simulations to Support Design of Decision-support Systems for Command and Control Applications <i>Jiri Trnka, Helena Granlund, Rego Granlund</i>	158
Clustering of Texts Facilitating Efficient Searching in Spatial Search Engines <i>R. Göbel, R.P. Lano</i>	164
A System Concept for Intelligent Surveillance of a Critical Infrastructure <i>Erland Jungert, Christina Grönwall, Niklas Hallberg, Fredrik Lantz</i>	170
Emergency Control in Shipyard Safety Systems <i>Augusto Celentano, Fabio Furlan, Stefano Burcovich</i>	178

DMS-10 Situated Computing

A Table-based Lively Interface for Collaborative Music Performance <i>Takeshi Nakaie, Takayuki Koyama, Masahito Hirakawa</i>	184
Layered Context Modeling in Situated Information Processing <i>Augusto Celentano</i>	190
Case Studies on Augmented Mirrors That Reflect Context <i>Kaori Fujinami</i>	196

DMS-11 Multimedia and Geosystems

Capturing and Sharing Sonic Experiences through Web-based Acoustic Maps <i>Daniela Fogli, Elisa Giaccardi</i>	202
Towards Multi-provider LBS Visual Portals <i>Silvia Gordillo, Robert Laurini, Catalina Mostaccio, Françoise Raffort, Sylvie Servigne</i>	208
Metaphorical Cartography for Knowledge Creation and Sharing <i>Augusto Celentano, Piero Mussio, Fabio Pittarello</i>	214
3D City Models as Part of an Open Geospatial Data Infrastructure <i>Jürgen Bogdahn, Volker Coors</i>	220

DMS-12 Content-based Multimedia Systems and Models

Dynamic Access of XML Document for Multi-User <i>Jeang-Kuo Chen, Kuan-Chang Lu</i>	226
A Multimedia Data Streams Model for Content-based Information Retrieval <i>Shenoda Guirguis, Rohit Kulkarni, Shi-Kuo Chang</i>	232
Area-based Data Mining for Querying on Spatial Data <i>Jeang-Kuo Chen, Wen-Ting Chien</i>	240

VLC Workshop

VLC-1 Visualization Techniques for Environmental and Cultural Heritage

Forestry Visualization and Analysis Using Lidar Data <i>Minho Park, Ian Brooks</i>	249
Human-computer Interaction in Emergency Management <i>Davide De Chiara, Vincenzo Del Fatto, Luca Paolino, Monica Sebillio, G. Tortora, G. Vitiello</i>	255
Augmented Tour of Archaeological Site by Means of Adaptive Virtual Guide <i>Andrea F. Abate, Giovanni Acampora, Stefano Ricciardi</i>	260

VLC-2 Sketch Computing

A Visual Language for Paper-based Computer-aided form Sketching (S) <i>P.J. Farrugia, J.C. Borg, K.P. Camilleri</i>	266
A Geometric-based Sketch Recognition Approach for Handwritten Mandarin Phonetic Symbols I <i>Paul Taele, Tracy Hammond</i>	270

VLC-3 Sketch Computing

Sketch-based Retrieval of Drawings Using Topological Proximity <i>Pedro Sousa, Manuel J. Fonseca</i>	276
STRAT: a Sketched-truss Recognition and Analysis Tool <i>Joshua M. Peschel, Tracy A. Hammond</i>	282
On the Semantic Labeling of Hand-drawn Sketches (S) <i>Gennaro Costagliola, Alberto Greco</i>	288

VLC-4 Visual Models and Metaphors for Computational Process Visualization

Spider Diagrams Augmented with Constants: A Complete System <i>Gem Stapleton</i>	292
A Visual Language for Data Integration <i>Fausta Cosenza, Vincenzo Deufemia, Massimiliano Giordano, Giuseppe Polese, Genoveffa Tortora</i>	300
InfoHub: an Alternative Approach to Process Visualization (S) <i>Daniel Gozick, David Squire, Minho Park</i>	306
Abstract Euler Diagram Isomorphism <i>Gem Stapleton, Andrew Fish, Peter Rodgers</i>	310
Visually Specifying Multi-agent Simulation Environments with DIVAs <i>R. Steiner, R. Zalila-Wenkstern, J. Burnell</i>	318

DET Workshop

DET-1 Eclipse Open Source Ecosystem and E-learning

Communities of Practice in Second Life: the Case of Eclipse Italian Community <i>P. Maresca, G. Scarfoglio, L. Sorrentino</i>	327
Eclipse and Web Services <i>L. Stanganelli, P. Maresca</i>	332
Identity, Negotiation and Trust in a Distributed Knowledge Management Network <i>Giacomo Franco, Paolo Maresca, Giancarlo Nota</i>	336

DET-2 Intelligent Resources for E-learning

E-exams Containing "Time-dependent Test Items With Immediate Check" <i>Paolo Maresca, Sergio Scippacercola</i>	343
Design and Implementation of a User Friendly Environment for the Creation of Learning Objects: CADDIE (Content Automated Design and Development Integrated Editor) <i>Giovanni Adorni, Diego Brondo, Mauro Coccoli</i>	349
Semantic Authoring of Learning Paths with Topic Maps <i>Giovanni Adorni, Mauro Coccoli, Gianni Vercelli, Giuliano Vivanet</i>	355
Dealing with SCORM Standard in a Virtual Communities Environment (S) <i>Luigi Colazzo, Andrea Molinari, Nicola Villa</i>	361

DET-3 Distance Learning for Culture and Arts

A Study of Moodle Learning Platform on the Internet Online Music Course <i>Wen-Chun Chang, Mei-Ju Su, Heng-Shun Chen, Yu-Huei Su</i>	365
Digital Art and Quality Living - Study of the Feasibility of Computerizing Senior Citizen Art Therapy (S) <i>Serina Lai, Yen-Shan Lin, Yen-Ting Chen, Yu-Huei Su, Mei-Ju Su, Heng-Shun Chen</i> .	370
Virtual Reality, VR Digital Art Website Setup and Teaching Applications <i>Chuan-Cheng Chang, Yu-Liang Chang, Ya-Chen Huang, Yu-Huei Su</i>	374

DET-4 Educational Technologies Practical and New Learning Models

A Rules-based System to Achieve Tailoring of SCORM Standard LOS <i>Pierpaolo Di Bitonto, Teresa Roselli, Veronica Rossano</i>	378
Synchronous Distance Lectures in Second Life: Teaching Fundamentals of Informatics <i>Andrea De Lucia, Rita Francese, Ignazio Passero, Genoveffa Tortora</i>	384

How to Use Grid Technology for Creating Contextualized and Adaptive Learning Experiences: the European Learning Grid Infrastructure Software Architecture <i>Matteo Gaeta, Francesco Orciuoli, Pierluigi Ritrovato</i>	390
Valle Del Sarno Experience: a Didactical Hypermedial Walk from Present to Past <i>Ignazio Passero, Luciano Ragazzi</i>	396
Reviewer's index	402
Author's Index	404

Note: (S) means short paper.
